

THOMAS BLANCHÉ

5th-year student in a dual degree program:

Computer Engineering at Polytech Lyon

Master's in Video Games at UQAC (Québec)

SEEKING FINAL-YEAR INTERNSHIP

I am currently seeking a minimum 22-week internship starting near September 2026.

PROFESSIONAL EXPERIENCE

FULL-STACK WEB DEVELOPER

September 2024

21-week internship at a Lyon-based IT services company. Contributed to the redesign of a business application using Java Spring Boot and Angular, including regular collaboration with the client to validate changes.

OBSERVATION INTERNSHIP - UBISOFT IVORY TOWER

November 2018

After attending company presentations about different roles, I assisted with quality validation for the racing game The Crew 2.

PROJECTS

TEAPOT (CRAYONNEUR)

Unreal Engine • Local & Online Multiplayer
(Steam)

Cooperative game using a projection of the 3D world onto 2D gameplay. Supports local multiplayer and online multiplayer via Steam.  [itch.io](#)

LE NECTAR DES ÉTOILES

WonderJam Winter 2026 • Blueprints • 48h

Short narrative game created in 48 hours, awarded 1st place in the jam. Developed primarily in Blueprints under Unreal Engine.  [itch.io](#)

JUSTE LE BOAT, EN FAITE

Godot • AI • Reinforcement Learning

Conquest game on a procedurally generated map with combat AI trained via Reinforcement Learning (using the Godot RL Agents plugin).
